Aditya Kishore Roy

Software Engineer Intern | ML & Full-Stack Developer

PROFILE

B.Tech student in Computer & Communication Engineering at Manipal Institute of Technology with hands-on experience in machine learning, data visualisation, and full-stack development. Proficient in Python, Pandas, and Scikit-learn with growing exposure to deep learning and generative AI. Passionate about applying AI to multiple challenges; eager to contribute to high-impact engineering teams.

WORK EXPERIENCE

Software Engineering Intern — Zemoso Technologies Hyderabad | May–Jul 2025

Zemoso is a product studio delivering agile pods for complex product design and development.

- Gained hands-on experience with NumPy and Pandas for large-scale data manipulation and analysis.
- Visualised complex datasets using Matplotlib and Seaborn, translating raw data into clear insights.
- Implemented end-to-end ML workflows with Scikit-learn on real-world datasets, covering feature extraction, model training, and evaluation.

Data & Systems Analyst — Mars Rover Manipal Manipal | Aug 2023–Apr 2024

- Conducted data-driven analysis on sensor-actuator systems, with emphasis on predictive modelling for hardware-software integration.
- Collaborated on system-level integration of sensors and actuators within the rover's control stack.

PROJECTS

Dynamic Course Allocator React · Node.js

- Designed and built a full-stack course allocation platform enabling students to apply for courses and admins to manage approvals.
- Implemented Role based authentication and RESTful APIs for user registration, course management and application workflows.

Flight Tracking System React · Node.js

- Developed a full-stack app integrating real-time aviation data APIs to monitor live aircraft movement.
- Engineered backend services for data fetching; built interactive map visualisations of flight paths and positions.

Stock Trading Platform Python · JavaScript

- Created a simulated trading system supporting order placement, portfolio tracking, and real-time price updates.
- Implemented core trading logic: buy/sell execution, balance management, and transaction history.

POSITIONS OF RESPONSIBILITY

Head of Videography Photography Club, Manipal Institute of Technology

General Secretary Photography Club, Manipal Institute of Technology
